Jeanette Foster : Frommer's Hawaii with Kids (Frommer's With Kids) before purchasing it in order to gage whether or not it would be worth my time, and all praised Frommer's Hawaii with Kids (Frommer's With Kids):

3 of 3 people found the following review helpful. Good infoBy Brinda S. SwansonThis is a great book because it is

part of the Frommer's series on Hawaii. However, I have other Frommer's editions on Hawaii and I didn't think this kid-specific edition was much different from the other ones I have. If this is the only book you get, you'll love it. If you already have the other Frommer's guide, it will be mostly duplicative. 10 of 13 people found the following review helpful. Good General Info but Restaurant Reviews not helpful By Kindle Customer This book had a lot of good general info on both Hawaii and good spots to visit with children. However, the restaurant reviews in general were not helpful. Restaurants rated positively for kids menus were often poor quality with limited children's selections. In one restaurant, the only thing our 3 year old could order was garlic bread! 1 of 5 people found the following review helpful. Hawaii with Kids By Gadget Mom MJ Love this book! Very helpful when planning your trip to an island for the first time.
