CustomerI highly recommend this book to anyone headed for Las Vegas with the kids in tow. It paints a very complete picture of the city and answers questions you'd never even think to ask. This book was published just as we were planning a trip that includes a stop in Las Vegas. Our three kids (ages 10, 8, 6) love to travel, but we have learned that you can never do enough research when it comes to planning a trip with kids. Having been to Vegas more than a few times without the kids, we have a pretty good feel for the place. Even so, a vacation with the kids along needs to be a very different type of trip, so we still found ourselves with many questions. Happily, this book answers them all! Very specific information on everything from hotels, restaurants, and attractions (including which places are NOT kid-friendly). Also includes info on side trips, shopping, etc. Everything is broken down into price categories (from very expensive to inexpensive and everything between). Definitely written by someone who understands that kids are not just miniature adults. I only wish I could get hold of such complete information for all our destinations! 17 of 17 people found the following review helpful. Indispensable guide for families By Efrén Díaz This is an incredibly detailed book that has a huge amount of information on what to do, see, and avoid in Vegas if you are traveling with children. The section on which restaurants and buffets to eat at for families that are on a budget is more than worth the price of this book. This book, along with "The Unofficial Guide to Las Vegas" by Bob Sehlinger will make planning your trip to Vegas fun and informative. Both are highly recommended!! 10 of 10 people found the following review helpful. The only book you need for Vegas with kids. By A Customer Snappily written and very informative. Made our trip so much easier. Loads of new places and activities for the kids. Highly recommended.

This exciting new title reveals the most fun and educational experiences for kids of all ages in Sin City. Believe it or not, in 2001, 12% of visitors to Las Vegas were families with children that's more than 4 million visitors with children in tow! Las Vegas with Kids is full of incredibly detailed tips right down to which hotels offer cribs and rollaway beds and which restaurants offer high chairs and kids' menus. Inside, you'll learn a wealth of information about where to find hands-on, interactive museums and attractions (with suggested age ranges for each activity); child-appropriate entertainment; kid-oriented shopping; and parks and other places to play all perfect for families with kids of any age (and any budget).
