ton of information and was a fantastic place to start the research process. It has all the must see sights and restaurants and everything is sorted by price and location. If you are looking to go on a nice and relaxing vacation to Peru this is a wonderful book. But if you are more of the backpacking sort I recommend taking everything in this book with a grain of salt. It's certainly a wonderful place to begin...but you'll have to do quite a bit of branching out. 1 of 1 people found the following review helpful. Essential for any Peru trip! By jwing I went on a trip to Cuzco, Machu Picchu and Lima in May. This book was essential! It helped us to organize our time and maximize our efforts.
