Effortless Instant Vacation PlannerBy M. J. KeysUnless you want to hire a tour guide or you have a friend who lives in Rome to take you around this is your best bet. Short and to the point reviews and info on all the things you want to see in Rome. Some of the prices in the book are already out of date. The Leonardo Express train to and from the airport now costs 11 Euros, not 9.50. The map that is included is good enough but lacks some detail. It would be nice if the map included little icons of the more popular sites for ease of reading. That said your hotel will probably have a tourist map for you for free. Using this book I put together an itinerary that was good for me in about an hour.0 of 0 people found the following review helpful. Five StarsBy ReyntalsVery helpful.

Twenty-eight years and many world travels later, she is still convinced that Rome is the most amazing place on earth . . . by far. As well-versed in classical archaeology as she is in designer shoes, she can be spotted drinking prosecco at the Vineria, taunting visiting teams at the Stadio Olimpico, or most oftengazing spellbound at the ruins of ancient Rome. She is the author of Frommer's Irreverent Guide to Rome and has also written for numerous other American and British guides to Rome.
