Best map of the Big IslandBy Henry WolfordWe go to Kona every other year and I never, repeat never go there without the most updated version of this map. The detail is essential sometimes to find those hard to find, yet gloriously perfect attractions. It has been the difference between making a five minute hike from a little known, local trail; and a half-hour kahole-buster hike from the more notable access points.

This is a reference map of Hawaii.
