**Thomas Wallace Knox : The Boy Travellers in South America Adventures of Two Youths in a Journey Through Ecuador, Peru, Bolivia, Brazil, Paraguay, Argentine Republic, and ... Voyages Upon the Amazon and la Plata Rivers**

before purchasing it in order to gauge whether or not it would be worth my time, and all praised *The Boy Travellers in South America Adventures of Two Youths in a Journey Through Ecuador, Peru, Bolivia, Brazil, Paraguay, Argentine Republic, and ... Voyages Upon the Amazon and la Plata Rivers*:

The plan of this volume is almost identically that of *The Boy Travellers in the Far East*. Frank Bassett and Fred Bronson, with their accomplished mentor, Doctor Bronson, have traversed the length and breadth of the South American Continent from the Isthmus of Panama to the Strait of Magellan. Twice have they crossed the Andes; they have descended the Madeira and the Amazon rivers; navigated the La Plata and the Paraguay; visited the principal cities of the continent, and studied the manners and customs of the many people whom they encountered on their way. For the information of their friends and schoolmates at home they recorded the results of their travels and observations, and it is the authors pleasure to tell the story of their journey. The characters of the story are fictitious, but the descriptions of everything coming under the observation of the Boy Travellers, or learned in their wanderings, are intended to be as nearly exact as possible. The author has not relied alone upon his personal knowledge of South America, but has drawn from the narratives of others who preceded or have followed him. It has been his earnest endeavor to present a realistic picture of South America; its lofty mountains, magnificent rivers, luxuriant forests, and fertile pampas, together with the many varieties of people that form its populations; their governments as we find them to-day, and an epitome of their history from ancient times. He earnestly hopes for the same kindly reception by press and public that was accorded to his volumes of a similar nature concerning Asia and Africa. Many works of travel have been examined in the preparation of this book. Some of these are mentioned in the narrative, but it has not been practicable to refer to all. The author acknowledges his great indebtedness to that prince of travellers, Alexander Von Humboldt, whose graphic de(Typographical errors above are due to OCR software and don't occur in the book.)
