Each page/country has local info that kids would be interested in and great maps as well. We read it together and it sparks a lot of questions about foreign countries that we would never talk about otherwise. I recommend this since not sure how much of this they get in school and if they do this would just reinforce it. It is like taking a trip around the world in one day!0 of 0 people found the following review helpful. even tho I'm not a child it has great information. So glad I have it!2 of 2 people found the following review helpful. AtlasBy Kindle CustomerThis atlas is our 4th children's atlas and it is our favorite. I homeschool our sons and it has more information regarding the countries than even the atlas that came with their curriculum. My 7 year old spends the most time with it.
