From Rizzoli : The Coast of Maine before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Coast of Maine:

0 of 0 people found the following review helpful. Five StarsBy Carole Weaverit was a great book to receive before visiting Maine!!0 of 0 people found the following review helpful. Beautiful photos of coastal MaineBy JaniceLove the photos with descriptions. Even tho dimensions are given, I was surprised that the book was so small (my fault for not actually measuring before ordering). Not a coffee table book, more of a "tray table" book, it's about the size of a paperback book. But great if you're lacking space and all in all a lovely souvenir/reminder of this beautiful part of Maine.5 of 5 people found the following review helpful. Beautiful bookBy TessWe live in Maine and have this small book on our coffee table. The pictures are just stunning.And if you are wondering - yes, Maine is that pretty.

With a coastline that rivals Californias, Maine attracts millions of visitors each year who come to swim, fish, hike, or just enjoy the views. Many of the images present a near panoramic scope, placing the viewer in the middle of a wilderness splendor. The photographs capture the regions famous sandy beaches, tree-covered mountains, tidepools brimming with life, and secluded harbors, as well as quaint villages, historic lighthouses, cranberry bogs, and lobster boats. Chapters cover Ogunquit, Kennebunkport, and Portland to Penobscot Bay, Mount Desert Island, and Cobscook Bay. A central focus is Acadia National Park, one of the top ten most visited national parks in America. Nearby, the town of Bar Harbor hosts more than eighty cruise ships each year. The book also celebrates offshore Maine, with images of whales, puffins, and other elusive sea creatures. The Coast of Maine makes an affordable and charming gift for anyone planning, or dreaming of, a visit to this glorious region.

About the AuthorCarl Heilman II is a devoted outdoorsman and nature photographer whose work has been published in several magazines such as Outside, National Geographic Adventure, National Parks, and presented on PBS. The author of Universe's The Adirondacks, he has most recently exhibited his work at the new Adirondack Park Visitors Interpretive Center.
