Jerry Monkman, Marcy Monkman : The Colors of Fall Road Trip Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised The Colors of Fall Road Trip Guide:

1 of 1 people found the following review helpful. FYI: Furthest South location in book is Rhode IslandBy A.M.D.G.Ugh I hate reading reviews when people haven't actually used or read the book.... But I just have to say, I didn't realise exactly how far up north these sites were. I live in FL and have never taken a trip to see the leaves change, so we are planning on something more like North Carolina.... Anyway, 5 stars because it's beautiful and my ignorance when purchasing shouldn't bring the book down. Plus - it's so lovely, we're starting to think more like Vermont. Will update my review if we do that.2 of 2 people found the following review helpful. a Great Helpful bookBy JHornungPoured over this book before we traveled to New England for our first Fall Drive in that part of the country. I mapped out and combined a number of suggested drives. In 6 days we drove 1700 miles and managed to see and enjoy routes from this book in New Hampshire, Vermont, MA and CT.... It was very helpful and easy to follow. Loved the suggestions. I highly recommend this book!2 of 2 people found the following review helpful. Wonderful

book for taking an autumn trip to the East Coast. By K. Great book. Great suggestions. Very good map to go with the loops recommended. This is one of two books that we used (the other was Frommers 23 Great Drives) and using the two of them we had the greatest autumn New England trip. I would recommend both. We will be using both many times in the future.

On the coffee table or in the glove compartment, it's the perfect fall foliage road trip companion.
