**Gail Stein : The Complete Idiot's Guide to Learning Spanish, 4E** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Complete Idiot's Guide to Learning Spanish, 4E:

13 of 13 people found the following review helpful. Great way to learn!By TexasbeeI recently wanted to brush up and improve on the conversational Spanish I learned in junior high school (way back in the Dark Ages of the 1960's.) This is a really easy and interesting way to do that, even if you've never had any Spanish instruction before. You can download the entire text (complete with audio) from the CD that comes with the book and follow along through each lesson as it's read to you by native speakers. The interactive format allows you to highlight passages, bookmark your location for the next time, easily page through the text, and have the audio on or off at your choosing.I've found that following along with the text as it's being read to me helps me stay focused, since I tend to be a "skimmer" sometimes. Hearing the speakers correctly pronounce the Spanish words is a major plus also. And there is always the book itself to refer to when you can't be on the computer. All in all a good approach to learning a foreign language. Mr. Fernandez would be proud.....1 of 1 people found the following review helpful. Awesome book, but accompanying CD is ...By

Hyacinth Uzoma This is a wonderful book for learners who are just starting to study Spanish. I wish I knew about this book four years ago when I became interested in learning Spanish for the first time. I probably would have become fluent in Spanish by now! What I enjoy most is the CD-ROM that comes with the book, except that it is a bit fast. It would have been good if the narrators spoke moderately slower than normal Spanish conversational speed. It would also have been a good idea to include one dialogue in each chapter, first spoken in normal conversational speed, then repeated more slowly. I am still enjoying the book! 4 of 4 people found the following review helpful. a good buy  
By E. Grammatikopoulou I bought this book in the hope of learning Spanish - a language I am fascinated with. It is a good book as a guide, to take you step by step through the language BUT it definitely needs extras. Don't rely just on this book, you will be lost. You need to buy a dictionary and a few other grammar and pronoun etc books to accompany it. Once you do, it is a very good guide and helpful enough.

Alpha's best-selling foreign language title and an all-time best-selling Complete Idiot's Guide (R), The Complete Idiot's Guide (R) to Learning Spanish, Fourth Edition, continues to be the single most useful book on learning Spanish for students and travelers alike. Completely updated, it now offers dozens of new exercises, easier-to-use answer keys, and a concise bi-lingual dictionary. It also provides a cutting edge learning tool that is unique among foreign language guides - an interactive, "audio e-book" that works on a computer or any MP3 CD player, allowing readers to read and listen to the lessons, including dialogues spoken by two native speakers.

About the Author Gail Stein is the author of over 27 books on foreign languages including The Complete Idiot's Guide (R) to Learning Spanish, The Complete Idiot's Guide (R) to Learning French, The Pocket Idiot's Guide (TM) to French Phrases and The Pocket Idiot's Guide (TM) to Spanish Phrases. She has taught Spanish in New York City public junior and senior high schools for more than 34 years.
