**Sir Vivian Fuchs, Sir Edmund Hillary : The Crossing of Antarctica** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Crossing of Antarctica:

0 of 0 people found the following review helpful. Four StarsBy sailinnngreta thanks3 of 3 people found the following review helpful. Fascinating, but a bit dryBy Mark W. SwarthoutI was loaned this book by an individual that had read it and it changed his life. It so sparked his imagination and desire that he contacted Fuchs and ended up joining some of the follow on expeditions as a mechanic and sled driver. The narrative is primarily factual, with little in the way of letting one see the personalities and people involved. The hardships and challenges they encountered as they crossed the continent from one side to the other, both by air and by ground are laid out clearly. Lots of photographs of the landscapes and vehicles included with a very detailed appendix of the primary vehicles and their specifications.
