Additionally, Doyle and his associates provide information about shore side activities including dining, resorts, bird watching and shopping. This edition contains many color photographs and is packed with updated information on navigation and sketch charts with GPS coordinates. Other features include sections on planning the cruise, weather, star charts, scuba diving and snorkeling, customs and immigration, communications, sightseeing and a directory of services including email and website addresses.

About the Author Chris Doyle's cruising guides are among the most popular in the Eastern Caribbean. Chris attributes this to listening to his customers when they tell him what they would like to see in a guide, and following their ideas when it makes sense. In this way his guides have always been highly innovative, leading the way in color sketch charts, then computerized color sketch charts, GPS waypoints, star charts and a guide-linked website where people can find corrections, download town maps, download GPS waypoints, access navigational advisories, and get links to down island businesses.
