Stephen and Dameron, Ned - illustrations King : THE DARK TOWER III: THE WASTE LANDS (First Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised THE DARK TOWER III: THE WASTE LANDS (First Edition):

0 of 0 people found the following review helpful. Great Series!By Seahawk4everAwesome book! Just wish the movie would have followed the story better. One thing I liked about the movies is that it inspired me to read the series again, for the 4th time! If your a Steven King fan you need to check out this series. If you have never read any Steven King I would recommend this book as your first Steven King novel.0 of 0 people found the following review helpful. Keeps you coming back for moreBy WarixeweiStephen King's Dark Tower series leads you from one adventure to another which each book. You really get to know the characters and their story as you go along. I love it almost as much as The Stand, I couldn't put that book down either!!0 of 0 people found the following review helpful. Not like the movie at all.By Onion OkrayThis is a really good start of a series. Picked it up after I saw the movie, which has nothing to do with the book, so far. The 2nd book is also very riveting and has a plot that just keeps moving right along. Very cool concept.

King's third volume on Roland the gunfighter's search for the Dark Tower offers charming bits of whimsy, some splendidly tense moments and one rip-roaring horror scene. At times, however, it is pretentious and the direction of the sprawling plot uncertain. Roland has two companions on his quest for the tower at the portal of all the worldsp. 53 : Susannah Dean and Eddie Dean, who entered his world from New York City of 1963 and 1987, respectively. When the three track down the den of a 70-foot-tall cyborg bear, they are pointed down a path leading to the Tower. But

Roland is slowly going mad, a fact that seems linked to his past experiences with Jake Chambers, a boy who died twice in the first book of the series. Jake reappears here, displaying great resilience in crossing over from 1977 New York City to join Roland Co. (As Susannah notes, "This time-travel business is some confusing shit.") They press on, plumbing the depths of a children's book that tells a profound and ancient tale. Unfortunately, the questers don't reach the Tower; in fact, they're caught in a cliff-hanger ending--King says, he'll write volume four if we want it. Illustrations not seen by PW. 1.5 million first printing; \$400,000 ad/promo; BOMC and QPB selections. Copyright 1991 Reed Business Information, Inc.
