Keith Lye, Malcolm Porter : The Earth in Three Dimensions: A World Atlas and Pop-Up Globe before purchasing it in order to gage whether or not it would be worth my time, and all praised The Earth in Three Dimensions: A World Atlas and Pop-Up Globe:

Inside this portable portfolio is a wonderful world waiting to be discovered. An unsnap of the special clasp reveals a 3-D, eight-inch diameter, state-of-the-art pop-up globe that spins on its axis. Tucked into a pocket beside the globe is an atlas filled with up-to-date information about the Earth and its people. 60 full-color photos. 40 full-color maps.
