By Catlaw71 This book is a compendium for high maintenance types: massage, facials, etc., and if that's what you want you'll be happy. I was looking for fashion finds, and there are few of them in this book (none that I found to be a new discovery as I've visited Paris a fair amount). This was simply not worth the money for me. 3 of 3 people found the following review helpful. Another great guide from Carole Sabas, it makes a great present for anyone visiting Paris. By T. Selby Like Carole Sabas' New York guide this Paris guide has been super helpful for me. It comes from a true fashion insider, with tons of great tips on where to eat, shop and have a blast in Paris. Get it for your next

trip to Paris and you will be sure to find some new spots to check out.0 of 0 people found the following review helpful.
