In 1976, Tommy Howard sold everything he owned, including five businesses, bought a Winnebago and sweet-talked his wife, Linda, into going on a road trip. To the ends of the world. I wanted the answer to the question, Why am I here? Four years later, at the end of a journey no one could have imagined, he found his answer. What happened in between is the stuff books, movies and legends are made of. You're in for the ride of your life, in a runaway Winnebago snaking its way down a mountainside in the middle of the Andes; on a floundering Winnebago rafting its way across a rolling river in Brazil; on a nervous Winnebago parked in the middle of a revolution in Peru. From a near death experience to an out of body experience to an unexpected encounter 35,000 feet in the air, *The Freedom Machine, An Unexpected Journey* chronicles the adventures and misadventures of a man and a woman destined to become the most daring, darling duo in the history of RVing. If you don't believe in miracles, you will by the time you finish reading about Tommy and Linda's incredible, unexpected journey that led them deep into the heart of another world and even deeper into their own heart, mind, body and soul. **HOLD YOUR BREATH AND BUCKLE UP!**

About the AuthorThere may be full time Rvers who have camped more than 15 years full time or visited more than 55 national parks, 49 states and 31 countries. There may be RV dealers who have sold more than 3,000 RV's. But only Tommy Howard has been on both sides of the desk and done it all. Tommy Howard is America's foremost expert on recreational vehicles. He has bought more RVs, sold more RVs and repaired more RVs than anyone alive. He is a full time RVer; a rolling stone living wherever he decides to park for the night.
