Travel has countless benefits to all areas of life, and they are available to everyone. This book is the liberating blueprint for finding freedom and happiness in your traveling life. The Freedom Project explains, for the first time, the secrets of travel Wilko has used to explore the world, and fly for free: How to escape, and deal with what gets in the way of getting away. How to plan for travel, turning your dreams into goals, and plans into action. How to book travel and claim what's yours. How to prepare to leave, and find the purpose of being packed and ready to go. How to go to where you want to be, bridging the distance while still feeling connected. How to be at the destination, and live your traveling life feeling more alive. How to come home and take some of your traveling "self" to who you are at home.
