Burt Struthers : The Guide to Bicycling the Roads out of Boulder before purchasing it in order to gage whether or not it would be worth my time, and all praised The Guide to Bicycling the Roads out of Boulder:

It has some great rides and good elevation-gain maps. Buy this if you're new to boulder or road cycling and want a book with a good variety of bike rides (i.e. easy, hard, lots or little elevation gain, etc...)The only downside: Some of the maps look like they're made using Microsoft Paint. This book is fantastic when accompanied with a good map (I have "Boulder Nederland" map by Sky Terrain).
