Richard Salisbury, Elizabeth Hawley : The Himalaya by Numbers: A Statistical Analysis of Mountaineering in the Nepal Himalaya before purchasing it in order to gage whether or not it would be worth my time, and all praised The Himalaya by Numbers: A Statistical Analysis of Mountaineering in the Nepal Himalaya:

* A nirvana of mountaineering data for students of Himalaya climbing information* Written by two of the foremost experts in the world on mountaineering in the Himalaya* Data is presented and analyzed based on three distinct expeditionary periods in Himalayan climbing* Companion to The Himalayan DatabaseWhat are the most dangerous

peaks to climb in the Nepal Himalaya? What are the safest? When is the best time of year to climb? These and many other questions are answered in this comprehensive statistical analysis of climbing activity, ascents, and fatalities in the Nepal Himalaya. Co-written by Elizabeth Hawley, the official historian of all expeditions for the past 50 years in the Nepal Himalaya, and Richard Salisbury, a Himalayan mountaineer and retired computer analyst from the University of Michigan. Published by Vajra Publications and distributed in North America by Mountaineers Books.
