Norman Anderson : The Kingdom of Saudi Arabia (Stacey International) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Kingdom of Saudi Arabia (Stacey International):

0 of 0 people found the following review helpful. Five StarsBy Ali K. SabirWow! what more can we I say :)0 of 0 people found the following review helpful. An imaginary journey to SaudiBy Farago EvaAn excellent description about the country, unaccessible for non-muslim tourists. Includes detailed information about geology, geography, history, religion, tradition, architecture, regions of the today country and the leading dynastie. Good fotos, nice print.

This single, large format volume, covers the history, culture, religion, economy and government of the country, providing detailed information on social development, the cities and industrial output. Illustrated with a wealth of previously unpublished photographs and an array of useful maps, this book, with its balanced coverage and specialist research, is an absolute must. The original edition of this work, published some twenty years ago, has long been acknowledged as the illustrated reference on the country, updated at regular intervals. This long awaited new edition starts from a clean slate, with a new larger format, completely new illustrative material throughout, and a text

substantially rewritten.
