Writing from the old school... when men were men, and writers knew how to write darn good copy By David Although written as a marketing piece for KLM and ALM in 1972, the writing in this pithy and breezy guidebook is fantastic: old school, vivid, entertaining, packed with interesting facts and history. And the section on Suriname is completely and refreshingly free of the type of hand-wringing observations about developing countries, which are all too common in modern travel writing. The weaker sections are the dated bits advising on shopping, restaurants etc. but even these throw open an interesting window on early '70s tourism. If only people still wrote the way Ian M. Keown did here.
