By Eric Jay Dolin Jeremy is one of the nation's most well-respected and knowledgeable experts on lighthouses. For many years he has been studying and giving tours of New England's many lighthouses, and in this book he shares what he has learned along the way, providing readers with a treasure-trove of fascinating information. It makes a great companion on any trip along the New England coast. It's like having your own personal tour guide of some of the nations most iconic lighthouses. In particular, his stories about the keepers and the building of the lighthouses are just fun to read. He does an excellent job of illuminating a bygone era, and does so with an easy style that makes it a pleasure to read. Highly

MurthaIf you are traveling to New England and are a lighthouse hunter for photography or just because you love them, this is the book for you. The detail and photos are first rate. You also know which ones you can drive to and which ones are located off shore. Vantage points are also given for the off shore ones as well as tour operators who specialize in coastal tours which include many lighthouses. There is also quite a bit of historical information on each lighthouse and they are grouped by state and area with driving directions.2 of 2 people found the following review helpful. Great resource for photographers and lighthouse enthusiastsBy Seth DeweyI owned the previous version of this guide and was happy to purchase the updated version. There are many lighthouses that I would have missed the opportunity to see if it were not for this guide. Whenever I am traveling along the New England coast, I always make sure to have this reference in my car. There is also a lot of interesting history contained within, so it makes a very pleasant recreational read as well. My goal is to eventually see all of the lighthouses that are featured in this guide.

The perfect companion for lighthouse buffs, and the most comprehensible and travel friendly field guide around, offers beautiful full-photographs, highly regarded directions and contact information, and complete articles on every existing lighthouse from way Down East Maine to cosmopolitan western Connecticut.For those looking for guide and reference. Not another coffee table display of lighthouses, but a companion of travel.

About the AuthorJeremy D'Entremont, along with being called New England's foremost lighthouse authority, is Historian for the American Lighthouse Foundation, founder of Friends of Portsmouth Harbor Lighthouse, the owner and tour operator for New England Lighthouse Tours, and the webmaster of New England Lighthouses: A Virtual Guide at www.lighthouse.cc.
