Based on Thoreau's experiences in the forests of Maine on three separate occasions in 1846, 1853 and 1857, *The Maine Woods* is a captivating portrait of the region in the mid-1800s. Rich with the naturalistic detail that is common with Thoreau's writing, readers will delight in the exquisiteness with which Thoreau relates his experiences in nature. *The Maine Woods* is a classic work that will enchant lovers of nature for years to come.
