**Robert Clancy : The mapping of Terra Australis: A Guide to Early Printed Maps of Australia, Antarctica and the South Pacific** before purchasing it in order to gage whether or not it would be worth my time, and all praised The mapping of Terra Australis: A Guide to Early Printed Maps of Australia, Antarctica and the South Pacific:

Copiously illustrated guide for historians and collectors, and those interested in Australian history. Presents maps that were significant in elucidating the mystery of 'Terra Australis', and sets them in historical context. Also discusses the features, origins, rarity, value and care of old maps. Includes references, a bibliography and an index. The author has written many articles on historic cartography of Australia and surrounding areas.
