It lives up to its title, and is a useful resource for those of us who cast horoscopes, or are learning to do so. It contains not only tables of houses, but explains how those houses are derived, and gives a wealth of information on casting charts that is difficult to find elsewhere. In short, it doesn't just present the information it claims to present, but it also gives some background on how that information is

obtained, and what it represents. Worth every penny. 0 of 0 people found the following review helpful. Awesome.
